

Submersible & Residue Water Pumps

Hilta Submersible and Residue Pumps

These compact and lightweight electric driven pumps are ideal for clear or drainage water.

Submersible water pumps

Features:

- Integrated stainless steel outer casing and strainer
- High wear resistance 410 stainless steel shaft
- Double mechanical seals
- Lubricated and maintenance free bearings
- 6 metres power cable
- Available in 110 Volt or 220 Volt

Features:

- Lightweight aluminium outer casing
- Motor class F IP68 execution with thermal overload protection
- Double mechanical seals
- Lubricated and maintenance free bearings
- 10 metres power cable
- Available in 110 Volt – 60Hz

Submersible

* Both available with float switch

SIZE	2" TOP OUTLET
HILTA REF	112/113/076
POWER	Electric Motor
POWER TYPE	110/220 Volt 400 Watt
MAX OUTPUT	240 litres /min 3830 gal /hr
MAX DRY SUCTION LIFT	N/A
TOTAL HEAD	10 metres / 11 metres
MAX SOLIDS	N/A
STARTING	N/A
DIMENSIONS (LxWxH)mm	N/A
WEIGHT	12.5 / 7.5kg

All hoses and fittings available for all pumps
